Nachhaltig mobil am Oberrhein

Transfer offer

Innovation network logistics

Network

You and other companies with a focus on intra- and distribution logistics are working together with the Karlsruhe and Offenburg universities to establish an innovation network for multimodal logistics in the Upper Rhine region. Within this network, you can actively contribute to developing and implementing innovative solution concepts for logistical challenges. The collaboration between industrial expertise and academic research creates new opportunities for progress.

Our offer

- Innovation network with renowned companies in the Upper Rhine region
- Collaborative exchange as equals
- Easy access to research with universities
