Alumni of the Graduate School Receive One Million Euro

Last but not least, Heike Dietrich (on the right) is the coordinator of the new Graduate School on the Offenburg side. She started with her duties in February 2020. Daniela Siebert (on the left in the picture), originating from Brazil, is currently coordinating the Master's degree program of Power and Data Engineering (PDE), the successor of the Master's programs Energy Engineering and Environmental Biotechnology. The PDE program will be launched in October 2020. Siebert has already started working in interdisciplinary teams to design a study program that reflects the needs of the current job market and equips students with the necessary learning techniques, internship search), specialist tutorials for in-depth study, and exam preparation.

Alumnus of the Graduate School Receives One Million Euro

The award of the German Academic Exchange Service (DAAD) for outstanding alumni was presented to Basal John, an alumnus of the Master's program in Computer Networks and Internet Technology (ENITS), at the 10th anniversary celebration of the program. The award was granted to Basal John not only for his academic achievements, but also for his social and university-related commitment. Najderek, presented him the "DAAD Award" for his active support for senior citizens in Offenburg.

New Coordinators at the Graduate School

The double degree program thus celebrated its tenth anniversary in the summer semester 2019. Over 250 students from all over the world have successfully studied MPE in Offenburg and Olsztyn in the past 10 years. Among international students in German-speaking countries, MPE is one of the most popular programs. The program is now coordinated by Dr. Reiner Staudt, who started his duties in February 2020. The program was recruited in the past by Dr. Ekkehard Schleif, who was head of the program on the Offenburg side.
