Information Leaflet on DAAD Test

1. Please bear in mind that the DAAD Test is not an internationally recognised exam! This is a language proficiency test used to help students to obtain a language certificate for an internship or study abroad.

2. The registration is binding. Only five participants can attend the test so make sure you have registered in advance. In case you cannot attend the test write us an email no later than 3 days prior to the test so that we have the possibility to assign your place to another person. Otherwise the test fee will not be refunded.

3. The test fee of 30 euros must have been paid with your OSCAR card before the test in room A 106 (Mr. Fischinger). Please bring the receipt of payment to the test.

4. The following documents are required: student ID (with photo), or your ID card, a DAAD form, is downloadable from: https://www.daad.de/medien/ausland/dokumente/daad-sprachnachweis_deutsche.pdf

5. Our DAAD test is generally designed for B2 level. C1 can be tested only if you can prove that this level is actually required for your application. Please make sure you have provided this information in your registration email.

6. The test lasts approximately 60 minutes and is comprised of three components: Reading comprehension (20 minutes), Writing (30 minutes, an essay) and Speaking (15 minutes). The test assesses general language proficiency and is not subject-specific. Since the Speaking part is an individual test the test time may be extended.
